746: Camille Schaeffer / Mister Monster (2020)

Wood, foil, paper.

Camille Schaeffer - or Cille Sch - is a visual artist based in Berlin. Coming from a Performing Arts and Interaction Design background, Cille Sch develops performative and narrative installations and uses sculpture as a medium to manifest situations that are in a reflexive and interactive relationship to the audience. These two artworks were part of my first solo show "Your own reflection" where I worked mainly with upcycled and reflexive materials. All artworks from this series have been created during the first lockdown where emotions and feelings were stuck and have been translated into explosive colors and shapes.
