

# DIREKTE AUKTION ART, ABER FAIR

## 532: Lena von Goedeke / Antibodies II (2020)

According to Lena von Goedeke, everything is only perceived through layers. Whether it is now the protective layer of disinfection, the mask, or the additional protective glass for smartphones, these are variations of analogue and digital filters, but the haptic nature of the surfaces always plays a special role.

GRÖSSE: 16 x 12 x 11 cm

EDITION: Unique
