

DIREKTE AUKTION ART, ABER FAIR

715: Lito Kattou / „Body VIII“ (2020)

"Body VIII" belongs to the acknowledge series of works "Bodies", where the artist deals with the presence and absence of the body. Her works engage with the sculptural potentiality of flatness, processes of embodiment and the transfigurations of material properties within the margins of space and time. Her practice raises questions around the relationship between humans, animals, the environment and technology as well as on the issue of otherness and symbiosis.
